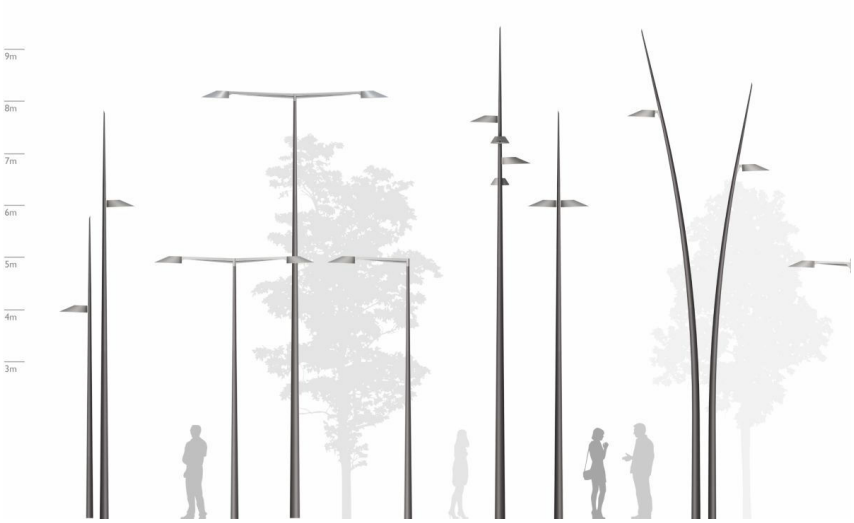
Ocean poles and brackets

JRP708



Ocean poles and brackets – Elegance and fluidity

One of the main characteristics of the Ocean family range, part of Philips' UrbanStyling approach, is the total solution it offers municipalities, landscape architects, urban planners and lighting designers. Urban enhancement can only be achieved when both the luminaires and their supports form part of an integrated concept. To this end, the Ocean family includes a range of dedicated poles and brackets which are consistent with the visual style of the Ocean Road LED and Ocean Ambiance LED luminaires.

Benefits

- Wide choice of combinations of poles, brackets and luminaires to suit different urban settings
- Consistent design signature across the city

Applications

- Roads and streets
- Parks and plazas
- City centers
- Paths

Features

- Perfect integration of Ocean luminaires with dedicated poles and brackets
- Family look across the complete set of pole, bracket and luminaire
