PHILIPS

KeyLine, Surface & Suspended

SM350C

The flexible light line

These days, many office owners and office lighting designers prefer lines of light. The reason is simple. Not only do light lines come in a minimalistic design; they also offer far more choice and flexibility. Short or long lines and luminaires, standalone luminaires, different optics including asymmetric, different shapes and even a variety of colors; anything is possible. And with KeyLine, all these benefits come at a competitive price while still complying with office lighting norms. KeyLine is a superb light line range with a slim, minimalistic design and a high lumen output to illuminate the brightest office spaces. But with comfortable, low levels of glare it's also easy on the eye and complies with UGR19. That makes KeyLine ideal for linear applications, as well as standalone suspended or surface-mounted luminaires(Accessories to be ordered separately). A range that offers the ultimate flexibility and unlimited possibilities. KeyLine design flexibility comes in the form of different lengths, colors and light outputs - including L-shapes, as well as straight lines. All with high efficiency up to 142 lm/W, and the option to upgrade with wireless connectivity and control.

Add to that attractive pricing, and with KeyLine you can also enjoy excellent value that ensures a superb total cost of ownership.

Benefits

- Suitable for office applications
- Excellent total cost of ownership
- Wide range of options to suit the demands of different offices
- Interact Connectivity ready with wireless drivers
- Standard options in different lengths, colors and light outputs
- Customization options

Applications

- Offices
- Retail
- Education

- KeyLine luminaires have an IP20 classification and are not protected against water ingress. We strongly recommend that the installation environment is checked for suitability.
- If – despite the IPX0 classification warning – luminaires are subject to water ingress, Philips and Signify cannot guarantee safety or prevent failure. In this case the product warranty does not apply and becomes void.

Features

- Comfortable, low glare: <UGR19 for the full range
- High lumen output, up to 4000lm for 1.2m version

General Information

Light source replaceable	No
Number of gear units	1 unit
Driver included	Yes
Service tag	Yes

Light Technical

Color rendering index (CRI)	>80
Beam angle of light source	120 degree(s)

Operating and Electrical

Line Frequency	50 to 60 Hz
Suitable for random switching	Yes
Protection class IEC	Safety class I

Mechanical and Housing

Ingress protection code	IP20 [Finger-protected]
Mech. impact protection code	IK06 [1 J]

Emergency Operation

Central Emergency	No

Approval and Application

Glow-wire test	Temperature 650 °C, duration 30 s
CE mark	Yes
ENEC mark	ENEC mark
Flickering value (PstLM) - Flickering value as per EN 61000-3-3	1
Stroboscopic effect visibility measure (SVM)	0.4
Ambient temperature range	+10 to +35 °C

Initial Performance (IEC Compliant)

Luminous flux tolerance	+/-10%
